HELP US SHOWCASE YOUR UNIVERSITY TO ILLINOIS COMPANIES

We're refreshing the Partner Matching webpage to make it easier for Illinois companies to find and connect with university research partners.

To ensure your institution is represented clearly and accurately, we're asking each university to share information about the resources, offices, and contacts available to support voucher-eligible research collaborations.

WHY THIS MATTERS

- It helps us route companies to the right partner faster
- It improves visibility for your campus on our website
- It reduces back-and-forth by putting accurate, up-to-date info in one place

WHAT WE'RE LOOKING FOR

Please complete our University R&D Resources Form with:

- Your key point(s) of contact for company engagement
- A short list of resources available to businesses (e.g., core labs, faculty access, student research, sponsored research offices)
- Descriptions of how companies can collaborate with your university
- A short write-up + link to display on the Partner Matching webpage
- Optional: Your logo and any supporting links or materials

Add your university's key contacts, resources, and collaboration details to be included on our Partner Matching page through the following link:

ABOUT VOUCHERS

The Illinois Innovation Voucher Program helps small businesses team up with nonprofit Illinois universities to tackle R&D projects. It covers up to 75% of the cost (max \$75,000), empowering both parties to collaborate without barriers.
